### EDUCATION

#### Tapovan Science Academy

Hsc - Science Stream (Percentage : 89%)

June-2019-May-2021

#### Sarvajanik College of Engineering and Technology(SCET)

Bachelor of Engineering, Information and Technology - 6th Sem (SPI : 9.56/10)

May-2021-Pursuing

### SKILLS

#### TECHNICAL SKILLS

- NodeJs
- JavaScript
- TypeScript
- C++
- Java
- C
- Html
- Css

#### FRAMEWORKS

- ReactJs
- NextJs
- ExpressJs
- Tailwind Css
- Bootstrap

#### DATABASES

- MongoDB
- Redis

#### OTHER TOOLS

- GitHub
- Postman
- Cloudinary
- JWT
- MongoDB Atlas
- Redux toolkit
- Zod

### ABOUT ME

I am a passionate final year student pursuing a degree in IT Engineering with a keen interest in FullStack development, design, and technology innovation. My expertise extends to Next.js, which I leverage to build server-rendered React applications, enhancing both performance and user experience. Throughout my academic journey, I have actively sought opportunities to expand my skill set and contribute to real-world projects.

### PROJECTS

#### Anonymous Message App | NextJs, TypeScript, Tailwind, MongoDB, Zod

- Developed a full-stack anonymous messaging platform using Next.js, MongoDB, and Tailwind CSS.
- Implemented secure user authentication with NextAuth and enhanced security with OTP verification.
- Utilized TypeScript for type safety, ensuring robust and maintainable code.
- Employed Zod for schema validation, ensuring data integrity and consistency.
- [Source Code](#)

#### RealTime Chat App | NextJs, TypeScript, Tailwind, Redis, Zod

- The project utilized a cutting-edge tech stack like Next.js, Tailwind CSS, and TypeScript to ensure scalability, responsiveness, and security.
- Integrated Google Authentication for secure user login and authentication.
- Implemented Pusher for real-time messaging, with notifications for online users.
- Utilized Redis as a database for efficient data storage, retrieval and ensuring scalability of application.
- [Source Code](#)

#### Shopping App | ReactJs, Tailwind, Redux

- Developed a responsive shopping application using React and Tailwind CSS.
- Implemented Redux Toolkit for efficient state management.
- Designed a visually appealing and user-friendly interface to enhance the shopping experience.
- Ensured full responsiveness for optimal viewing on various devices and screen sizes.
- [Source Code](#)

#### Blog Website | ReactJs, Tailwind, Redux

- Developed a dynamic blog website using React.js and Tailwind CSS.
- Utilized appContext for efficient state management across the application.
- Implemented dark mode for enhanced user experience and accessibility.
